

ROLL CALL INFORMATION – SECRETARY’S REPORT -2017

In order to make roll call at the district conventions less time consuming and more accurate, we suggest a process that is being used at some of our larger conventions. **You may adapt the roll call to best meet your needs. Please report the attendance in writing to the ISDUP Board Member.**

Make an attendance slip to be given to each individual with the program at the door. The attendance slip should list the companies involved and the camps in each company. Each person who attends will mark the company and camp to which she belongs.

The attendance slips are collected by two daughters who count them and figure the percentage for each company. During the general meeting, the secretary of the hostess company reports the results -- **number attending and percentage.** **Each company (or camp) should stand and be recognized** as their company (or camp) attendance is given.

The written report is then given to the ISDUP Board Member.

To calculate the percentage, take the number of members attending divided by the number of active (dues paying) members.

Here are three sample attendance slips:
